Vote Privilege Neglected By Most Citizens

By the United Press Only one out of every three persons of voting age in California actually casts his vote.

This was disclosed by Charles J. Hagerty, deputy secretary of state, in an analysis of state election statistics and the latest tables of the last statewide census.

"The largest vote ever cast in California was at the general election last year," said Hagerty, "when 1,141,872 persons out of a total registration of 2,245,228 actually went to the polls and cast their vote for governor and other state officials.

"The registration doesn't indicate the number of persons eligible to vote, however. Latest figures of the census bureau show that there are 3,861,388 persons of voting age in the state at the present time. Of course 2,025,774 are men and 1,835,614 are women.

"Of course, not all of these are not eligible to vote, but most of them are. Of this total only 2,245,228 are citizens and 33,042 do not have their citizenship reported. Some, perhaps, are ex-convicts who do not have the right of franchise unless granted an unconditional pardon by the governor."

In Los Angeles county, for example, the census figures show a total of 737,956 men and 782,818 women to be 21 years of age or over, while the total vote cast at the last general election was 409,801.

CHURCHES OF CHRIST, SCIENTIST
 "God the Preserver of Man" is the subject of the Lesson-Sermon on Sunday, December 13, in all branches of The Mother Church, The First Church of Christ, Scientist in Boston, Mass.

A Scriptural selection from the Acts recounts the occasion when Paul preached until midnight. The selection continues: "And there sat in a window a certain young man named Eutychus, being fallen into a deep sleep; and as Paul was long preaching, a snore came down upon him, and he fell down from the third floor, and was taken up dead. And Paul went down, and fell on him, and embracing him said, Trouble not yourself; for his life is in him. When he therefore was come up again, and had broken bread, and eaten, and talked a long while, even till break of day, he departed. And he brought the young man alive, and were not a little comforted."

A passer-by from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, states: "The divine Love, which made harmless the poisonous viper, which delivered men from the boiling oil, from the fiery furnace, from the jaws of the lion, can heal the sick in every age and triumph over sin and death."

 While we are equipped to furnish any type of heating equipment, we especially recommend Andrews Wall Heaters. They are easy to install in old as well as new houses and do not take up valuable floor space.
 Unlike radiant heaters, the opposite side of the room is heated as well as the space in front of the heater. Pure air is drawn in from the outside, heated and circulated to all parts of the room.

Old Mining Camp Has Water Famine
 PLACERVILLE—(U.P.)—For the second time in the history of Georgetown, mining camp of the gold rush days, the residents are without water.
 The extreme drought has resulted in dropping the level of Loom lake, from which the camp gets its water, to such an extent that it is below the outlet into the municipal conduits. This left the townspeople with no other supply than a few wells.
 Many residents are carrying water hundreds of yards to their homes. An electric pump has been installed by the volunteer fire department in a mine immediately back of the Georgetown hotel, and water may be pumped from a tunnel there in case of emergency.

FLICKER AILMENT
 HOLLYWOOD—(U.P.)—Lots of movie stars are going to have sinus trouble this winter, said Buster Keaton. "How?" queried Lawrence Tibbett. "Oh," replied Buster. "Nobody will sign us."
 TWO HEARTED BABY DEAD LONDON—(U.P.)—Death due to malformation was the coroner's verdict on a baby girl who was born with two hearts, only one of which functioned.
